[EnSci Memo re CDM Interpretive Report EnSc 2014_0623.pdf](#)

Charlie and Andy – my attached letter transmits AR's technical comments in review of the Interpretive Report prepared by CCM Smith for EPA (April 9, 2014). My letter summarizes the technical comments and explains Atlantic Richfield's legal position related to EPA's response activities to mitigate exposure to arsenic in groundwater in the Anaconda area. We submit these comments for EPA's consideration in advance of the July 29th meeting to discuss the ARWW&S domestic well monitoring and replacement program.
